Respondent

APPLICANT'S SIMPLIFIED SUBMISSIONS IN REPLY

(Application for Leave and Judicial Review under Simplified Procedure)

Instructions

This form is for the applicant to provide their simplified submissions in reply regarding this application for leave and judicial review of a study permit refusal. The Court knows the basic principles governing judicial review and its recent jurisprudence regarding study permits.

Submissions should focus on the facts of the case and the grounds of judicial review arising out of the reasons of the decision under judicial review, with clear references where possible to relevant pinpoints in the Simplified Certified Tribunal Record. Between their initial and reply submissions, the applicant may include references for up to three (3) decisions they wish to bring to the Court's attention, but such references must include no more than one sentence explaining why the party is bringing this decision to the Court's attention.

The applicant must provide their reply in a maximum of 200 words in 12-point Times New Roman, Arial or Tahoma in the allotted space, then serve and file this Simplified Submissions Form.

Artificial Intelligence was used in the preparation of these Simplified Submissions and I have read the [Notice on the Use of Artificial Intelligence in Court Proceedings](#).

Artificial Intelligence was **not** used in the preparation of these Simplified Submissions.
